INSIDE POCKETS/LINING INSTRUCTIONS, BACK PAGE 2ND COLUMN. Steps 14 and 15 have been updated as follows:

14. Fold each of the 20" squares in half, wrong sides together. Fuse the inside of each with the 10" x 20" pieces of lightweight fusible Pellon. Top-stitch 1/8" along the folded top of the pocket.

15. Use a chalk marker to draw a line 5" up from the bottom of each piece of lining. Align the raw edges of the pocket on this line, with the top of the pocket toward the bottom of the lining piece and pin in place. Draw another line on the pocket piece, 1" from the raw edge, and sew along this line to secure the pocket to the lining.
